GAMES 2026

Dear Smart Partner,

Welcome to SMART Toys and Games, where fun meets learning!

Both our new catalogues (one for toys and one for games now) are full of exciting new toys and games that entertain and stimulate the minds of all ages.

At SMART we believe in game-based learning. By playing with our toys and games everyone can unlock their potential while having a good time. Passion fuels us, and our talented team continuously works to create innovative and enriching play experiences.

Each product in these catalogues reflect our commitment to quality, fun, and education.

Specialising in logic puzzle games that ignite imagination and strengthen cognitive abilities, SmartGames offers an educational and engaging experience for all ages. Explore our well balanced selection of construction toys with SmartMax® and GeoSmart®, where creativity blends seamlessly with education, stimulating fine motor skills, spatial awareness and motor skills.

After the successful acquisition of WOW TOYS in 2024 for toddlers and preschoolers, in 2025 we could welcome RECENT TOYS and INSIDE CUBE into our group. This step confirms our decision to step into the exciting world of Mechanical Brainteasers and Twisty Puzzles by acquiring a solid base to work from.

Additionally, our other brands such as Happy Cube®, The Happy Puzzle Company®, Smartivity®, Yatzy®, Mimiq®, and Foooty® contribute to the stable growth of our company. Last but not least, we introduce the exciting gift line of SPEKS in many of our markets. Great new products in amazing packaging bring us into a completely different field of the ever growing market of gifts and premiums.

A big thank you to all our partners, especially those who distribute or work with our product lines. Your support helps us bring these great toys and games to people all around the world.

Explore the world of SMART, take a look at our catalogues, and let the adventures begin!

On behalf of the SMART Team,

ROLF VANDOREN .

SMART
GAMES®

**At SmartGames® we believe
in game-based learning.
By playing our games everyone
can unlock their potential while
having a good time!**

SmartGames® are unique thanks to a combination of:

cognitive skills

We make sure that every game is building on multiple skills such as spatial insight, planning, logical thinking, problem-solving, concentration, and visual perception. The skills that are trained while playing the game, are indicated on every box.

progressive play

All our games grow with the player's skillset, contain many challenges, and progressively become more difficult.

The challenges have been divided in four or five difficulty levels: Starter, Junior, Expert, Master and Wizard. Independent of age and skill, you are better off to start with easy challenges and work your way up to the most advanced levels.

challenge booklet

Every game contains a booklet where all challenges and solutions are explained. The challenges become gradually more difficult, from the Starter level all the way to Wizard.

By going through every challenge you will discover the tricks and develop the skills needed to progress further and further.

grows with you

The recommended starting age is clearly indicated on the packaging. From this point, players can begin with starter-level challenges and progress through increasingly difficult levels.

As with all SmartGames®, practice helps building the skills needed to tackle the higher levels. Each game offers an engaging experience that keeps also kids and adults puzzled.

how to play

SmartGames® feature easy-to-understand intuitive rules that are easily explained in few steps only. This way you can quickly start playing.

SmartGames® categories

preschool puzzle games

These puzzle games stimulate cognitive growth, and critical thinking from an early age. Designed to captivate the curious minds of toddlers.

1 player puzzle games

This category of puzzles is narrative driven and takes place in an imaginary setting, where players act as problem-solvers.

1 player IQ games

The goal of these multilevel logic puzzles is to fit and fill puzzle objects into a grid. These games provide a range of challenges starting from simple concepts that gradually increase in complexity.

brain teasers

These puzzles are challenging brainteasers where the main goal is to fit all the puzzle pieces together.

Genius Battle Games[®]

This category consists of head-to-head puzzle games where players race to fill the grid.

multiplayer SmartGames[®]

A world of family & strategic games where players take turns, anticipate opponents, and use strategies to win across increasing difficulty levels.

+ PICTURE BOOK

Help Hansel & Gretel escape from the Witch's haunted garden.

Help Hansel & Gretel escape, by sliding the puzzle pieces. But beware - the Witch's enchanted garden seeks to thwart your escape. Hansel & Gretel is a magical puzzle game for children of age 5 to 8, where thinking before you act is crucial. Logic, planning and hand-eye coordination all come into play in this educational solo game. Plus, enjoy a family-friendly picture book that puts a modern twist on the classic fairytale.

how to play

Choose a challenge. Place the puzzle pieces as shown in the challenge.

Help Hansel and/or Gretel escape. Watch out: the lollipop-trees will try to block your movement.

You have found the solution when you can slide Hansel and/or Gretel through the exit.

INSIDE 3

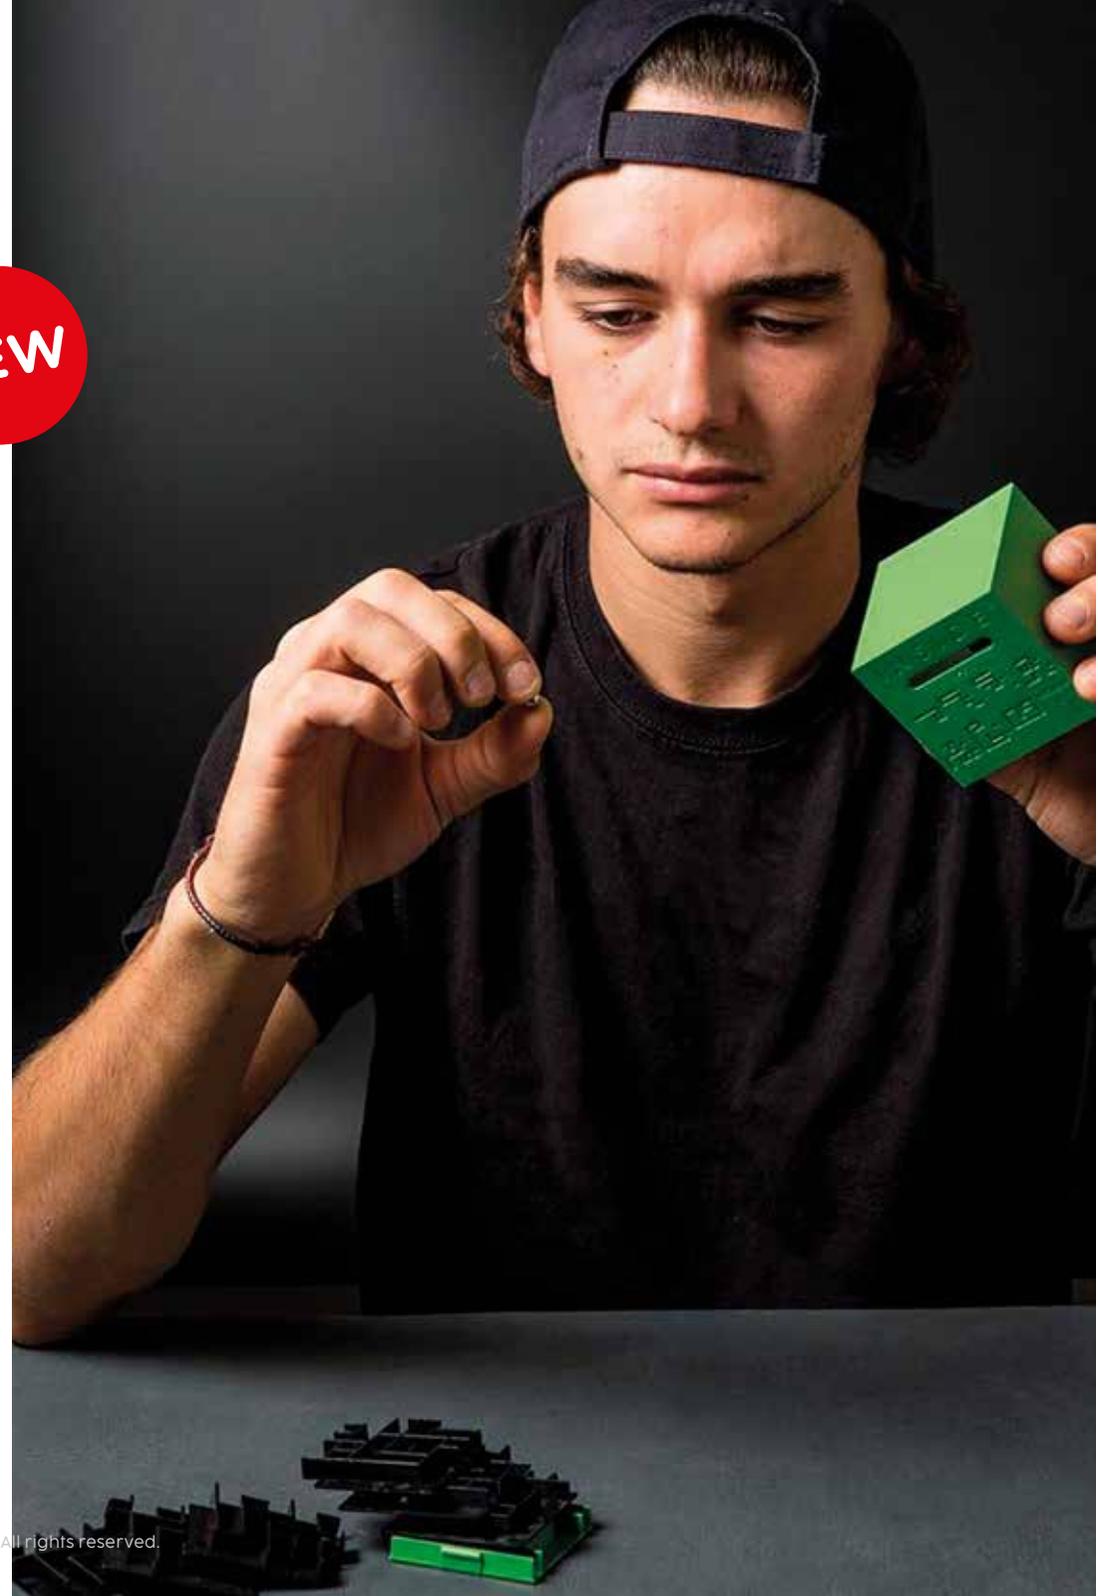

Inside Cube reimagines the classic marble maze by plunging it into darkness. Created in 2012 by Romain Guirec, this passionate designer discovered he could create an incredible object encompassing all his passions: games, architecture, exploration, and a touch of fear.

There's a whole collection of cubes, from the simplest to the most complex, themed or not, with one or two marbles, that you can try to solve. And if that's not enough, you can mix and match the same-sized cube trays to create new ones!

The Legend range immerses players in a fantastic graphic and architectural universe! Let yourself be captivated by these addictive little mazes!
